

Welcome to “De Kandelaar”

In the middle of the rural county of Flevoland (the Netherlands), you find “De Kandelaar” (The Candlestick), which is a milk and agricultural farm.

Here you can stay in a unique Bed & Breakfast location, where you can enjoy the delights of the polder landscape.

Staying at De Kandelaar

De Kandelaar has two double bedrooms on the ground floor and a large double bedroom bedroom, as well as a large six-person bedroom on the first floor. All rooms have lovely spring divan beds, a seating area and television. There are three showers and four toilets available for guest's use. In the breakfast room, every morning an excellent breakfast awaits you and outside there is a terrace where you can enjoy the vast landscape.

Days out & Attractions

Near De Kandelaar are various attraction parks within easy reach such as Aviodrome, Batavia-city, the Dolfinarium, Flevonice and Walibi World. You can also enjoy bike rides or walks within the area and nature parks “Lelystad” and “Larserbos” are close. Amsterdam is also accessible within an hour by car or train.

Dairy Farm

In 2000 this modern farm was started by two families originating from the South of the Netherlands; families Van Kempen and Van Diepenbeek. Cows are milked by two highly technical ‘milk robots’ (voluntary milking systems), and there is another robot to collect and dispose of the manure. The cows are given the best possible comfort such as climate control, grooming and back scratching brushes.

For those who would like to know more about the working of our modern dairy farm then please contact us to book a tour. Visitors are welcomed with coffee on arrival and tours of the farm and milking areas lasts up to 1½ hours.
